Drawings Submission to Publications Group
FOR THE ATTENTION OF NADINE CLARK

As noted in a communication mailed about September 11, 2002, Counsel had a phone call on September 9, 2002 requesting substitute drawings. The printer requested such replacement notwithstanding the fact that Examiner Dr. Sean Smith had indicated that the drawings were satisfactory when the Notice of Allowance was mailed on September 7, 2001.

The draftsperson has had about 50 years of experience in both patents and drafting, and re-studied all current rules in preparing these drawings. Moreover, she is a stakeholder concerning the project, so she seeks to expedite issuance of the patent, knowing that each day of delay shortens the term of the patent protection. Please pinpoint any criticisms of the drawings so that if any corrections were needed, they could be expedited. There is believed to be no fee for submission of corrected or replacement drawings. In case there is, the form so that such fee would be paid from Deposit Account 50-1224 is enclosed.
